⏱ Running late

- Tap **+5** **+10** **+15** **+30** **+45** **+60** min, then **Send to drivers**.
- Everything after now moves later. The session on track just ends later.
- Too much? **−5** pulls it back.

🚩 Catch up after an incident

- Tap **Catch up 5 / 10 / 15 / 20 / 30**, then **Send to drivers**.
- Remaining track sessions get shorter, split evenly. Lunch and classroom stay the same; no session drops below 10 min.
- **Undo** if it's not right.

A green ✓ **… sent to drivers** note confirms every change, and drivers with alerts on get a phone notification. **Red flag:** tap **+15** when the track stops, then **Catch up 15** to finish on time.

✏️ Change one session

- Under **Sessions**, tap it.
- **Start −5/+5** and **End −5/+5** adjust it.
- **Remove session** deletes it from that day.

🎓 Coaching and check rides

- Tap **+ Book coaching or check ride**.
- Enter the student's email and the instructor, pick the session, tap **Book**.
- Both get an email. The student sees it on **My Day**.

⭐ Feedback and 📬 driver list

At the bottom of Admin: drivers' star ratings, and your **driver list** (people who joined from the Now tab). Tap **Download spreadsheet** for their emails.
